DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tom Cole on August 8, 2005.

The application has been amended as follows: delete "10" from claim 4 line 16, "L5" from claim 5 line 2, "5" from claim 6 line 9, and "10" from claim 15 line 14.

Allowable Subject Matter

2. Claims 2, 4, 5, 6, 10, 12, 13, 15, 17, 18 are allowed. The following is a statement of reasons for the indication of allowable subject matter: The allowability resides in the overall structure of the device as recited in dependant apparatus claims 2, 4, 10, 12, 15, and 17 and at least in part, because claims 2, 10, 15 recites: "wherein the first fixing parts are holes formed on the disc player and the second fixing parts are formed on the connection plate and arranged on a straight line with the first fixing parts", and because claims 4, 12, 17 recites "wherein a first coupling unit which is coupled with the second coupling unit formed on the connection plate of the display unit in an interference fit method is formed on the disc player".

The aforementioned limitations in combination with all remaining limitations of said claims are believed to render said claims 2, 4, 10, 12, and 15 and all claims dependent therefrom patentable over the art of record.

The closest reference to the present invention is believed to be Kitazawa (PN 6,633,347).

Kitazawa fails to teach wherein the first fixing parts are holes formed on the disc player and the second fixing parts are formed on the connection plate and arranged on a straight line with the first fixing parts or wherein a first coupling unit which is coupled with the second coupling unit formed on the connection plate of the display unit in an interference fit method is formed on the disc player.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Corey M. Broussard whose telephone number is 571 272 2799. The examiner can normally be reached on 7:30-5 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynn Feild can be reached on 571 272 2092. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
